

CSWC Operational Period Summary

0600 March 28 2016 to 1800 March 28 2016

First Responders to the Waterman Incident, San Bernardino County recognized at the California State Senate

Photo Credit: Assemblywoman Ling Ling Chang

SITUATION SUMMARY

Weather of Concern

Northern California

- The Redwood coast may see a few localized areas of frost.
- Showers in the East Bay currently moving in a general north to south direction

Southern California

- Damaging winds are possible over the Antelope Valley.
- Peak gusts reaching 70 to 90 mph over the mountain peaks and along the deserts slopes tonight. In the deserts, high winds will create areas of blowing dust and sand
- A High Wind Warning is in effect for areas in [Los Angeles](#), San Bernardino, Riverside, and San Diego Counties

Cal OES Recovery Staff

Four Cal OES Recovery Staff are deployed:
Santa Cruz County Damage Assessment

- Kyle Gleave
- Donald Cardenas

City of Pacifica Applicants' Briefing and Site Inspections

- John Schuessler
- Robert Larson

Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

WEATHER

WEATHER SYNOPSIS BY REGION:

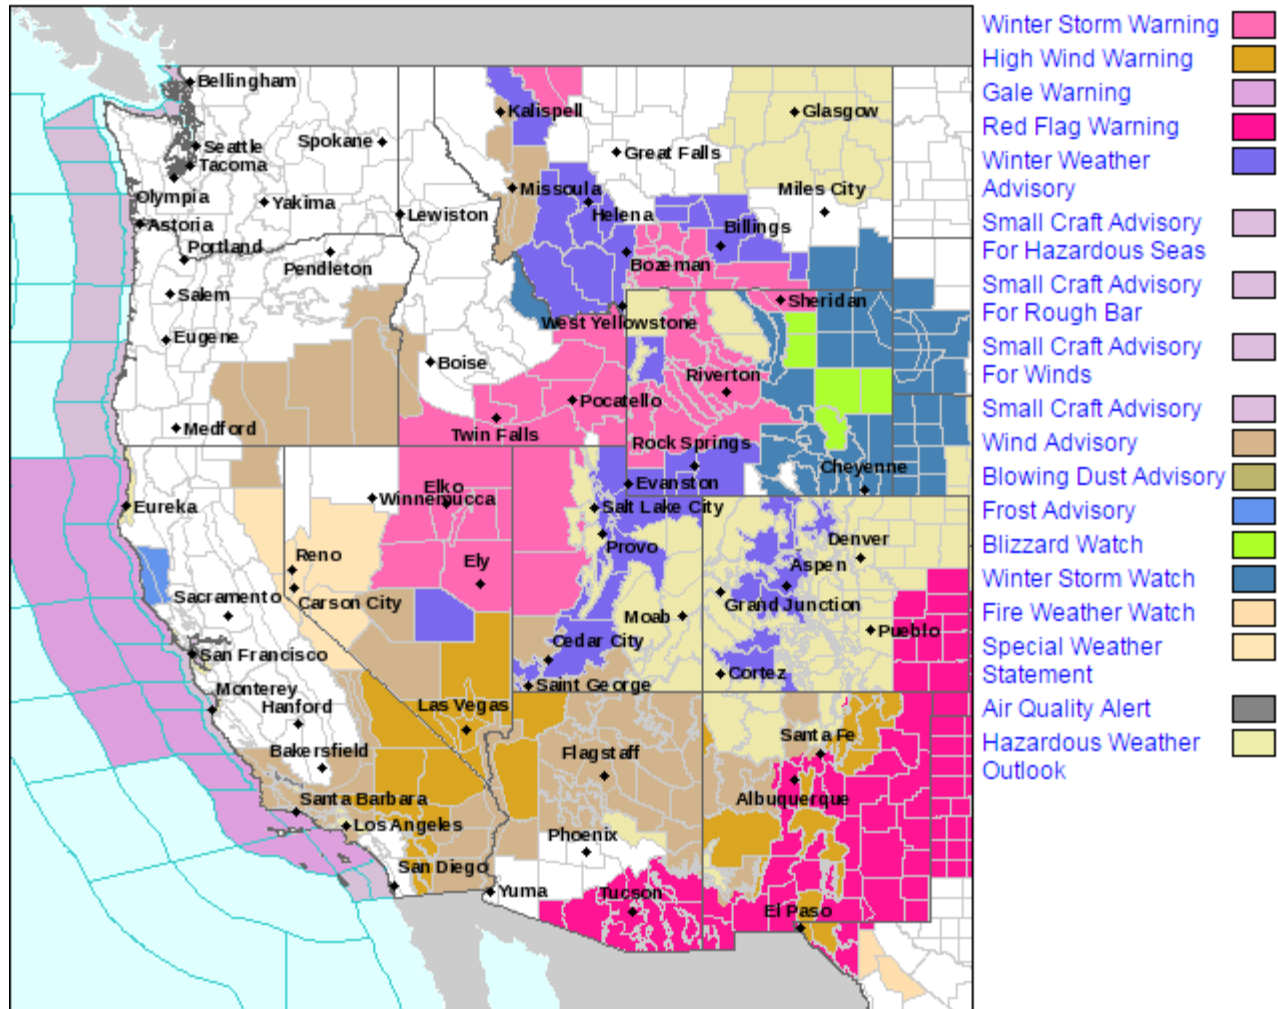

NORTHERN CALIFORNIA

A cold low pressure system will move from southwest Oregon to northeast California by midday today and western Nevada by late this afternoon. Cool and breezy conditions will prevail across Northern California. Northerly surface winds will gust to 25-35 mph in wind-prone areas. Northern and eastern portions of the region will be mostly cloudy with scattered snow showers, while the remainder of the area will be dry with partly cloudy skies. The low will continue moving east toward the Rockies on Tuesday, but conditions throughout the North Ops region will remain about the same as today, with slightly warmer temperatures in the partly cloudy areas. Snow levels in the northern and eastern areas will rise to around 4000 ft. By late Wednesday the low will form into a trough extending from UT to Southern CA, leaving the Northern California in a drier NE flow. At the surface NE to E winds will gust to 35 mph from the western Sierra slopes to the coast, and locally higher in wind-prone areas. Between now and early Wednesday, when the last showers between Susanville to Lake Tahoe dissipate, rainfall equivalent totals will be as much as 0.75 inches in eastern areas and less than 0.25 inches in far northern areas. Measurable precipitation is not expected elsewhere in Northern California. Thursday and Friday will be warmer and drier with light winds as high pressure passes overhead. A couple of weak fronts are expected to bring cooler and windier weather to the region next weekend, with spotty light rain in northern and northwestern areas.

SOUTHERN CALIFORNIA

An area of low pressure over the Great Basin will bring scattered light showers at times to the Sierra and to Southern California through Wednesday evening. Most locations will receive less than a quarter inch of rainfall with this low pressure area. The snow level will be around 5,000 feet. This low will also bring strong westerly winds of 20 to 40 mph with gusts to 60 mph to the mountain ridges and desert passes including the Owens Valley through tonight. These winds will decrease to 20 to 30 mph with gusts to 50 mph Tuesday and then winds will become light by Wednesday morning. Temperatures will be 5 to 10 degrees below normal through Wednesday, with 40s to low 50s across the mountains and upper 50s and 60s in the valleys. A ridge of high pressure will bring significant warming and drying to the area Thursday and Friday. Temperatures will be 5 to 10 degrees above normal and minimum humidity will drop to between 15% and 30% across most locations Friday through this weekend.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.

CAL OES MISSIONS

Closed Cal OES Law Missions

2016-LAW-22083, 3/26/16, 2130 hours: The Air Force Rescue Coordination Center (AFRCC) notified the CA State Warning Center of a PLB Activation. The PLB was reported stolen from Sab Pablo, Contra Costa County. AFRCC advised the device has continued to alert after several satellite passes plotting near Cutting Blvd. between 18th & 19th Street in the City of Richmond, Contra Costa County. LDO notified Richmond Police Department of the activation and location. A Richmond Police Officer was dispatched to investigate. The officer checked the area and advised they were unable to locate the PLB or anyone in distress. AFRCC was contacted and advised the PLB is continuing to sound. **UPDATE: 3/27/16, 0730:** per AFRCC the PLB continues to sound. A Civil Air Patrol Team (CAP) is being assigned to work with Richmond Police to locate and silence the device. **Update 1540 hours, CAP located and silenced the PLB. The person who was in possession of the PLB (a junk collector) turned it over to CAP who returned it to San Pablo Police Department. Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
